APP VERSION
Your app version is displayed in the top-left corner of your app

ANDROID VERSION
Your Android version can typically be found in under Settings > About [Device Type]

ECU VERSION
Your ECU software version is displayed on the "ECU Setup" page

USB INSTALLATION
Devices will only allow downloads from USB devices if the "Install Unknown Apps" box is checked under Apps > Special App Access > Install Unknown Apps > My Files (or device equivalent)
Care should be taken to uncheck this same box on completion of app update.

USB Installation Cheatsheet
- Check Android version in settings.
- Refer to chart to choose correct app option.
- Search Settings for "unknown" and choose "Install Unknown Apps". Check the box in "My Files".
- Insert USB and navigate to My Files. Locate the USB drive.
- Select the appropriate install version and follow the prompts.
- Uncheck the "Install Unknown Files" option in My Files.
